---

## 1. The 3 Interaction Modes (Edit Interactions)

When an element is selected on Chart A, Chart B can behave in one of three ways:

1. **Fill**

## 2. Page-to-Page Drillthrough

- Allows users to right-click a data point (e.g., Customer "Acme Corp") and navigate to a dedicated **Customer Deep-Dive Page** with all visual filters automatically carried over.

- Cor

## 3. Slicer Types & Enhancements

- Hierarchy Slicers, Tile Slicers, Between Date Sliders, Relative Date Slicers (e.g., "Last 30 Days", "This Quarter").
