

# B.Tech Data Science Notes

---

A comprehensive, well-structured repository containing semester-wise notes for B.Tech Data Science. This repository is specifically designed to help students prepare efficiently for university examinations.

## Directory Structure

---

The repository is organized by semesters and subjects:

## Features

---

All notes are formatted to be highly accessible and exam-ready:

- \* **Definition to Remember:** A concise, technically accurate opening definition for quick grasping.
- \* **10-Mark Exam-Ready Answers:** Thoroughly structured explanations tailored to comprehensively cover a 10-mark examination question.
- \* **Memory Keywords:** Essential technical terms and formulas are bolded for rapid visual recall without over-highlighting.
- \* **Must-Write Points:** 5-7 essential bullet points at the end of each topic to ensure maximum exam score coverage.
- \* **Quick Recall:** A one-line, logical flow sequence at the very end of every file to summarize the concept instantly.
- \* **Diagrams & Tables:** Clean, easily redrawable structures to support theoretical concepts.

## How to Use

---

- Navigate to the specific Semester -> Subject -> Module.
- Read the **Definition** first to establish context.
- Review the structured answer, paying attention to the bolded **Memory Keywords**.
- Before an exam, rely heavily on the **Must-Write Points** and **Quick Recall** strings for rapid revision.

## Contribution

---

Contributions are welcome. If you find a typo, have a better diagram, or want to add missing modules:

1. Fork the repository.
2. Create your feature branch ( `git checkout -b feature/module-addition` ).
3. Commit your changes ( `git commit -m 'Added Module 4 for DBMS'` ).
4. Push to the branch ( `git push origin feature/module-addition` ).
5. Open a Pull Request.

## Disclaimer

---

These notes are a supplementary study aid compiled for academic revision. While every effort has been made to ensure technical accuracy, students are advised to cross-reference with their official university syllabus and prescribed textbooks.
